

RAVDEEP KAUR

Technical Instructor | Software Trainer | Curriculum Developer | Developer Enablement

Hamilton, ON | 437-984-2791 | ravdeep27@gmail.com | linkedin.com/in/kaurravdeep/ | Permanent Resident of Canada

PROFESSIONAL SUMMARY

Computer science educator and technical training professional with 10+ years of post-secondary experience teaching software development, programming, databases, web/mobile development, cloud concepts, networking, testing, and IT project courses. Known for clear technical explanation, structured labs, project-based learning, student support, faculty coordination, assessment design, and translating complex software concepts into practical workplace-ready learning outcomes.

CORE VALUE PROPOSITION

Software Instruction	Curriculum & Enablement	Documentation & Communication
Python, Java, C#, .NET, PHP, JavaScript, React, React Native, SQL, testing, Git/GitHub, cloud fundamentals.	Lesson plans, course outlines, lab design, rubrics, assessments, LMS delivery, faculty onboarding, learner support.	Training manuals, job aids, technical guides, troubleshooting notes, presentations, reports, stakeholder updates.

TECHNICAL SKILLS

Programming & Web: Python, Java, C#, .NET, C/C++, PHP, JavaScript, HTML/CSS, React, React Native, ASP.NET, mobile web

Database & Software Concepts: SQL, database design, ERD/EERD, normalization, CRUD workflows, APIs, OOP, data structures, SDLC, debugging

Testing, Cloud & Tools: Selenium WebDriver, JUnit concepts, Azure fundamentals, Git/GitHub, LMS platforms, MS Office, technical documentation

PROFESSIONAL EXPERIENCE

Computer Software Instructor | triOS-Mohawk College | Mississauga, ON | Aug 2022 - Dec 2025

- Delivered software, web development, database, cloud, networking, testing, and software engineering courses through lectures, labs, applied projects, assessments, and learner support.
- Guided learners through full-stack development workflows, debugging, technical problem solving, database-backed applications, and project implementation.
- Designed and facilitated hands-on activities, practical demonstrations, assessments, and feedback cycles aligned with program outcomes.
- Supported student success through academic coaching, student support time, attendance coordination, placement readiness, and administrative follow-up.

Program Coordinator | Continental Institute for International Studies | India | Oct 2018 - Jul 2022

- Coordinated delivery of Canadian partner curriculum for Year 1 and Year 2 pathway programs across computer science, business technology, interactive media, and related programs.
- Reviewed course outlines, weekly schedules, lesson plans, assessments, and program implementation for academic quality and consistency.
- Served as liaison among students, faculty, internal departments, and Canadian partner institutions for day-to-day academic and operational matters.
- Trained new faculty on international academic expectations, course delivery standards, program processes, documentation, and reporting requirements.
- Collected program progress data and prepared statistical reports to support assessment, evaluation, and continuous improvement.

Assistant Professor | Continental Institute for International Studies | India | Jul 2015 - Sep 2018

- Taught technical courses through structured lectures, labs, assignments, demonstrations, and academic support for Canadian partner-program expectations.
- Developed training manuals, instruction manuals, question banks, academic support resources, and practical classroom activities.
- Provided academic advising and learner support for at-risk students, students on probation, and students returning to degree programs.
- Contributed to examination committee work, timetable planning, IT quizzes, web design events, and student engagement activities.

Hybrid Mobile Applications Intern | Impinge Solutions | India | Jan 2015 - Jun 2015

- Developed hybrid mobile applications using Sencha Touch and Apache Cordova, integrating mobile apps with backend services, APIs, and databases.
- Collaborated with designers on UI implementation, used Git for codebase management, and tested applications for functionality, compatibility, performance, and user experience.

CANADIAN PARTNER CURRICULUM EXPERIENCE

Thompson Rivers University BCS; Conestoga College IT Innovation and Design; Red River College Business Technology Management and Biotechnology Foundation; Georgian College Interactive Media Design and Web; Saskatchewan Institute of Applied Science and Technology Business Certificate and Hotel/Restaurant Management programs.

EDUCATION

- Master of Computer Applications, Punjabi University, India, 2012 - 2015 | First Class First Position; Gold Medal
- Bachelor of Computer Applications, Punjabi University, India, 2009 - 2012 | First Class First Position; Gold Medal

CERTIFICATIONS, RESEARCH, AND PROFESSIONAL DEVELOPMENT

- Instructor Certification Program (ICP), triOS College, Mississauga, CA, 2023 - 2024; Introduction to Artificial Intelligence, IBM/Coursera.
- International Skilled Workshop (BOPPPS), Canadian education system workshop, CIIS, 2016.
- Published systematic review on biometric authentication and identification approaches, 2018.
- Professional learning: Python with Data Science; Web Designing; Graphic Designing and Animation for Web; ICON 2018; Cyber Crime and Challenges paper presentation.
- Honours: Best Coordinator Award, Continental Institute for International Studies; Gold Medal in both master's and bachelor's degree programs.
